

We manufacture golf balls for the world's leading brands. Replay Golf acknowledges that the success of our partners is our own success. We take pride in supporting our customer's value proposition with our state of the art technology and building solid relationships based on product quality, innovation, trust and service.

TWO-PIECE SOFT DISTANCE

"Surlyn Cover"

PRINT AND DURABILITY COATING

Eco-friendly ink that guarantees the durability of the print. Enhanced impact clear coat to assure maximum durability and a softer feel.

DIMPLE PATTERN

A 352 owned "Bee-Panel" dimple pattern guarantees that only the most modern flight trajectory technology has been implemented in our 2 Piece Ball.

COVER

Mix of the most advanced Surlyns for a softer feel, durability and spin rate. A quality control center-proof technology to avoid any miss-centered balls.

CORE

Highest quality polibutadiene cores for maximum distance while maintaining a smooth compression for a soft feel on long irons and driver.

QUALITY CONTROL

Our thrive for quality control is constant! Every single production process has its own quality control. Each batch of cores, covers and finished balls are canon tested to guarantee maximum quality and performance.

Apart from our internal quality control processes, we work with different professional golfers of the PGA Tour to feel, test and help us manufacture the best value added golf balls.

BALL MODEL	COLORS	CORE DIMENSION	WEIGHT (Gr) / DIAMETER (mm)	BREAKING POINT	FLIGHT	COR	CORE TYPE	DIMPLE NUMBER / DIMPLE TYPE	COVER
